Leaving the Multinational

The Likelihood and Nature of Employee Mobility from MNEs

Martin Andersson, Davide Castellani, Claudio Fassio, Viroj Jienwatcharamongkhon

Appendix

Figure A.1. A typology of workers' mobility

Table A.1. List of variables

Variables	Description	Source
DEPENDENT VARIABLES		
<i>Mobility</i>	=1 if, between t and t+1, an employee moves to a different firm; =0 if they do not change employer	FAD
<i>Mobility to other MNEs</i>	=1 if, between t and t+1, an employee moves to an MNE; =0 if they do not change employer	FAD
<i>Mobility to incumbent</i>	=1 if, between t and t+1, an employee moves to an existing firm which is not an MNE; =0 if they do not change employer	FAD
<i>Mobility to start-up</i>	=1 if, between t and t+1, an employee moves to a firm that is founded between t and t+1 or becomes owner of a business that is founded between t and t+1; =0 if they do not change employer	FAD
INDEPENDENT VARIABLES		
INDIVIDUAL-LEVEL		
<i>Characteristics that do not depend on the workplace</i>		
<i>Gender</i>	=0 if male and =1 if female	LISA
<i>Age</i>	Age of the individual at current year	LISA
<i>Children</i>	=1 if the individual has any children	LISA
<i>Education</i>	Years of education	LISA
<i>Phd</i>	=1 if the individual holds a PhD	LISA
<i>STEM</i>	=1 if the individual has education within Science, Technology, Engineering, and Mathematics (STEM)	LISA
<i>Social Science</i>	=1 if the individual has education within Social Science field	LISA
<i>Prior moves</i>	Number of employer changes in the five years prior to time t	LISA
<i>Grades</i>	Registered highschool grades	LISA
<i>Characteristics that depend on the workplace</i>		
<i>Tenure</i>	How many years the individual has worked in the same firm	FAD
<i>Wage</i>	Log of salary income	LISA
<i>Manager</i>	=1 if the individual holds a managerial position (Group 1 according to ISCO-88 classification)	LISA
<i>Professional</i>	=1 if the individual has an occupation within the professional field, e.g. physicist, chemist, etc. (Group 2 according to ISCO-88)	LISA
<i>Technician</i>	Dummy whether the individual is a technician (Group 3 according to ISCO-88)	LISA

Variables	Description	Source
FIRM-LEVEL		
<i>MNE</i>	=1 if the firm belongs to an MNE	Register of company group
<i>MNE tenure</i>	A set of dummy variables indicating whether the firm has a <i>Short-</i> (1-3 years), <i>Medium-</i> (4-9 years) tenure of belonging to a corporate group. <i>Long_MNEtenure</i> (10+ years) is the reference group	
<i>Firm Employees</i>	Number of employees at the firm in which the individual is employed at current year, in logarithmic form	FAD
<i>Group Employees</i>	Number of employees within the Corporate Group, in logarithmic form, and 0 for firms that do not belong to any corporate group	FAD, Register of company group
<i>Value Added</i>	Total value-added of the firm in which the individual is employed, in logarithmic form	
<i>Share of R&D managers</i>	Percentage of R&D managers at the firm	LISA, FAD
<i>Share of STEM</i>	Percentage of employees at the firm with STEM education and a long tertiary education	
<i>Share of PhD</i>	Percentage of employees at the firm with a PhD	
<i>Exporter</i>	=1 if the firm is an exporter in year t	UHV
<i>Importer</i>	=1 if the firm is an importer in year t	
<i>Sales</i>	Log of total sales of the firm in year t	FEK
<i>Exit</i>	=1 if the firm exits the market between time <i>t</i> and <i>t+1</i>	FEK
<i>Industry</i>	A set of dummies indicating the industry of the firm according to OECD definition, i.e. <i>High-</i> , <i>Medium-High-</i> , <i>Medium-Low-</i> , <i>Lowtech</i> manufacturing, <i>Knowledge-</i> and <i>Non-knowledge intensive services</i> (<i>KIS</i> , <i>LKIS</i>), and residual sectors are the reference group	
REGION-LEVEL		
<i>Region size</i>	Log of size of the local labor market region, expressed in total number of employees, in which the individual is employed, excluding the number of employees at the same firm	FEK, FAD

Note: The regressions also include year dummies.

Table A.2. Descriptive statistics, all sample.

Variable	Observations	Mean	Std. Dev.	Min	Max
<i>Mobility</i>	4,004,227	0.062	0.242	0	1
<i>MNE</i>	4,004,227	0.682	0.466	0	1
<i>Gender</i>	4,004,227	0.337	0.473	0	1
<i>Age</i>	4,004,227	42.953	9.437	25	60
<i>Children</i>	4,004,227	0.471	0.499	0	1
<i>Education</i>	4,004,227	12.244	2.274	0	20
<i>PhD</i>	4,004,227	0.008	0.088	0	1
<i>STEM</i>	4,004,227	0.415	0.493	0	1
