

### Scenario 1 - Colony cage egg production

Name of scorer: Expert 7

Comments Round 2

Welfare principles	Welfare criteria	1st round score	90% certain lower bound	90% certain upper bound	2nd round score	90% certain lower bound	90% certain upper bound
	<div> </div>						
Good feeding	1 Provision and access to food. Animals should have appropriate access to the quantity and quality of appropriate foodstuffs for health and wellbeing. 2 Provision and access to water. Animals should have appropriate access to the quantity and quality of water for health and wellbeing.						
Good housing	3 Animals should have comfort when resting. 4 Animals should have thermal comfort being neither too hot nor too cold.						
Good health	5 Animals should have sufficient space to move freely. 6 Animals should be free from injuries and diseases (e.g. skin conditions, lameness, bone fractures etc.). 7 Animals should be free from disease, including metabolic conditions, with high standards of health <del>and welfare</del> . 8 Animals should not suffer pain (for example as a result of poor management, handling, surgical or other procedures, slaughter etc.)						
Appropriate behaviour	9 Animals should be able to express normal, non-harmful social behaviours (such as grooming and social bonding). 10 Animals should be able to express other normal behaviours (e.g. foraging, exploring). 11 Animals should be handled well with positive and not negative animal-human relationships. 12 Additional aspects not already adequately covered above in relation to the balance between positive and negative affective states for animals.						

### Scenario 2 - Barn egg production
